Load capacity up to 50 kg

Illuminated deck

Possibility to fold the handlebar and carrying handle

Wide illuminated wheels, high stability

**Distinguishing features**

- For children from 3 years old up to 50 kg
- Deck with anti-slip finish
- Brake integrated in the rear axle, lined with steel
- Ergonomic scooter design and 3 wheels
- Positively influences coordination and motor development
- Motion-activated and powered LED lighting in wheels
- LED lighting in the deck powered by batteries
- Power supply: 3x AA 1.5 V batteries (approx. 50h of uninterrupted work)
- Product ready to use after removing from the packaging, does not require assembly
- Possibility to fold the handlebar and use it as a carrying handle

**Specification**

- Wheels: PP, PU, front: 12 x 4 cm, rear: 8 x 4 cm
- Weight range: up to 50 kg
- Product dimensions: 26.5 x 60 x 64-76 cm
- Net product weight: 3 kg
- Material: aluminum, nylon, PP and PU plastic, TRE plastic

Can be powered by a power bank

Recording on microSD

System of independent reminders

Sound playback in both the camera and monitor

### Distinguishing features

- Clear 2.8" TFT RGB screen
- High refresh rate – very smooth image, no delays
- Possibility of creating a fully mobile setup – the camera can be powered by a power bank
- 3x digital zoom – zoom into a selected part of the image captured by the camera
- Multi-level and multitasking system of independent reminders (several can be set up)
- Sound playback capability in both the camera and screen – replaces devices like white noise machines, e.g. Szumisie ®
- Intelligent VOX notification and energy-saving system – sound detection automatically lights up the screen
- Range: 50 m/350 m
- Ability to pair up to 4 cameras
- Ability to record to a memory card
- High-capacity battery ensuring long operating time
- Sounds: 6 nature sounds

### Specification

- Screen: 2.8" TFT RGB
- Display resolution: 320x240px
- Range: 50m / 350m
- Frequency: 50 Hz / 60 Hz
- Power adapter: 5 V / 1 A (power adapter not included in the set)
- Receiver battery: 2600 mAh
- Battery operating time: up to 8 hours
- Camera: 1/3" CMOS GC2083
- Viewing angle: up to 80°
- Night mode: up to 7 m

Automatic measurement lock

Measurement displayed for 25 seconds after locking

Last measurement in the scale memory

Possibility to tare the scale

## Distinguishing features

- Automatic measurement lock - the device shows accurate weight despite the baby's gentle movements
- Large, backlit display
- The measurement is displayed for 25 seconds after locking
- After the child is lifted off the scale, it will still be visible
- The device has 4 preset units to choose from
- The last measurement is stored in the scale's memory
- Energy-saving function turns off the unused device after 25 seconds
- Possibility to tare the scale for accurate measurement when using a baby pad
- Accurate weighing result, thanks to measurement in 5g increments
- The device will warn you of low battery by displaying a message
- Large, contoured surface to make it easy to keep the baby on the scale
- Manual lock allows you to lock the measurement in case of a very active baby

## Specification

- Device dimensions: 63 x 30 x 5.5 cm
- Minimum load: 20g
- Maximum load: 50kg
- Measurement accuracy: 5g
- Units: Kg/g/lb/st:lb
- Tare function

Installation without drilling

Universal clamping

Clamping on components  
from 5-48 mm

Long bracket

## Distinguishing features

- The bracket allows the camera to be attached in a stable manner without drilling into the wall or bed frame
- The handle can be attached almost anywhere - to the edges of furniture, to a lamp, to a bed frame or on a flat, horizontal surface
- The additional clamp allows the bracket to be fitted to components between 5 and 48 mm thick
- Long bracket allows the camera to be positioned higher, widening the monitored area

## Compatible with

- Babyline 3.2
- Babyline View
- Babyline 8.2
- Babyline 8.3

## Specification

- Length of the bracket with clamp: 56.5 cm
- Two attachment methods: bracket and clamp
- The W-thread screw allows all Babyline cameras with threaded holes to be attached
- The W-threaded screw is a universal fixing size, so the bracket will also fit other devices
- Material: plastic

## Set

- Flexible bracket for camera
- Clamp attached to the bracket
